

VILLA ANOUK

CRETE

DESCRIPTION & FEATURES

Villa Anouk is a three-level guest house that sits right at the Metohi beachfront, halfway from the town of Elounda to the picturesque village of Plaka. Built between the seafront road and the beach, Villa features ample interiors as well as spacious exteriors, all fully equipped with tasteful, stylish and easy-to-use amenities.

The house was fully refurbished with the guests in mind: every little detail was carefully planned, designed, and executed to make your stay a memorable holiday experience. We created a home away from home in terms of comfort and amenities, yet we made certain that the coziness, wellbeing and the sense of familiar will go hand in hand with style, elegance and an air of luxury that would spoil you the way you deserve to be spoiled while on holiday, away from the ordinary and the mundane.

Villa manager Ioanna will show you, what true Cretan hospitality really is about, making our guest feel at home, helping them to experience the warmth of the Cretan land, the culture and history, and open nature of the local community.

It is a three-level house: the main entrance is from the seaside road to the ground level with a floor above and another one below it that opens to a fully equipped seafront yard with direct access to the sea water. All three levels are serviced by a spacious 6-person elevator and an interior staircase. The house features a state-of-the-art alarm system with motion sensors in each room and exterior cameras that provide complete privacy for you while scanning the outer borders of the house.
